

# WISBROEK PARROT LOW FAT DAILY | SMALL & LARGE

## SUITABLE FOR:

### SMALL

Cockatoo, monk parakeet and other small parrots

### LARGE

Galah, cockatoo, amazon and other (middle) large parrots

Wisbroek Parrot Low Fat Daily is a complete daily food for parrots and Psittaciformes. This diet is particularly suitable for weight control for birds.

During the unique extrusion process, the high diversity of raw materials under high pressure to a delicious crunchy pellet formed. Each pellet contains all the nutrients your bird needs to stay in good condition. Besides the pellets, no extra additions to the food are necessary. Our ingredients fit perfectly with the diet of parrots in the wild. The pellets are therefore prepared with real fruits and vegetables, such as apple, carrot and rose hip.

This balanced recipe ensures optimal digestion by using organic nutrients. We use raw materials such as alfalfa and spirulina for our pellet. These contain natural carotenoids, which are bodily substances that birds in the wild would also eat and ensure that your bird's true natural colors come out.

In addition to all these healthy nutrients, all the necessary fatty acids, amino acids, vitamins, minerals and other essential nutrients are also derived from animal and plant protein sources of only the highest quality. These ingredients help to support your bird's immune system, among other things.
